

STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN.

ALBERTA THURSDAY, APRIL 18, 1929

Whole Number 454

**"I found
big car
dependability"**

NATURALLY, people expect more of a BIG Six. They expect stamina and dependability, as well as beauty and performance.

Men who give a car hard usage are being impressed by the dependability of Pontiac Big Six. And the longer they drive it the deeper grows their respect.

They look for Big Six dependability—and they get it . . . plus the smoothness, the power and the rich riding comfort that only General Motors and Fisher Body builders could provide at Pontiac price.

P-10-A-210

Pontiac BIG 6

READ THESE REASONS
Bigger Bodies by Fisher. Rich smooth upholstery. Tremendous power. Big six high-compression engine—accurately balanced. Fuel pump. New type carburetor. Internal expanding oil pump. Improved brakes. Just controlled, this-ray headlights. Lowboy Shock Absorbers. Spring covers.

E. H. Pidgeon, Stony Plain, Alta.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Essex, The Challenger,

Is proving to be a real Car, and is doing all that is claimed for it.

We ask you to drive and compare it with any other car.

Note the quick and smooth response of the motor. The speed and superb get-away.

The handling and riding quality are outstanding.

Don't take our word for it, but drive the car and prove it for yourself.

G. Oppertshauser.

New Pontiac Garage.

Work was commenced last week on the new garage in Stony Plain for E. H. Pidgeon, the McLaughlin and Pontiac dealer. The building will be located on Main street south, between Stony Plain Motors and the new amusement hall being erected by Mr. Fred Klammer. The building will be 100 x 40 feet, and will have all the appliances and conveniences of an up-to-date garage.

Mr. Pidgeon has purchased another lot to the south, thus giving him ample accommodation.

Newcomers Arriving.

The local agent for immigration is receiving three or four consignments weekly of young laborers, on order for local farmers. There promises to be a big demand for these this spring, as a considerable amount of new land will be cleared, ready for the breaking plow. So far, the local agent, Mr. Werner, has placed over forty of the newcomers. On Friday a party of five English-speaking Hollanders arrived, and all were placed shortly after their arrival.

Motor Car Notes.

Banker Northwood has purchased a New Ford coupe; Phil Baron has bought a New Ford truck, for use in his oil business.

The Hardwick Department Store has secured a Chevy Six truck for making deliveries. Raymond Shaul has taken out a Chevy Six coach. Jac Mayer on Friday took a nifty-looking light blue convertible Chevrolet coupe down Main street which attracted some little attention. Jac is negotiating for the sale of this to one of our leading townsmen.

Mr. Sommerfeld is making a motor trip to Greencourt this week.

Stony's New Hall

Mr. Fred Klammer intends proceeding with the construction of the new amusement hall at Main and 3d streets. The original plans have undergone a slight change with regard to the height of the building, but otherwise the ground plan will cover the same area.

When completed, this building will compare favorably with any there is at present on Main street. It is expected that movie pictures only will be shown at first, the more expensive "speakeasies" being introduced at a later date, when the patronage the house receives warrants such. A first-class floor for dancing will be laid.

Mr. L. Precht is now teaching school in a town in the north.

For Sale—Purebred Tamworth Bantam, 18 months old. R. E. Jay, Moir Lake.

Think Of the Future

A condition of prosperity prevails throughout Canada from coast to coast. It is not confined to any one section nor to any one industry or group of industries. There is, in fact, a generality to the extent favorable situation probably without a parallel in the past history of the Dominion. This is not to say that everybody or every industry is equally prosperous, or, indeed, that there are not those who do not enjoy prosperity. The contrary is true. But taking Canada as a whole, and in the major activities of its people, prosperity reigns today.

Such a condition is, of course, gratifying. Nobody would have it otherwise, and all desire that it shall be long continued. But there are dangers to be avoided in times of more or less universal prosperity which do not present themselves when times are hard and business depression rather than business activity is in evidence. It is an old and often proved statement that many people who can and have stood strong and true through the strain and stress of adversity, and were through to ultimate victory, have cracked and broken when favored with prosperity and success.

Canada is prosperous today, and it should take full advantage of its present favorable position. The people are optimistic and should continue so. They should continue to show vision, courage, and engage in constructive development. They would be unworthy of their heritage and the future possibilities of their Dominion if they acted otherwise. But they should nevertheless have a care in the enthusiasm of the glowing present not to forget the years to come.

Just as night follows day, winter follows summer, young grows into old age, and death is the ultimate end of birth, so is it inevitable that, in course of time, depression in business will follow buoyancy. A pendulum swings just as far one way as it does the other. It is a wise man and a wise community, therefore, which when times are good and development is the order of the day, takes thought of, and prepares for that future day when retrenchment may become a necessity.

If growth and expansion is artificially pushed too far; if an individual or a community becomes committed to large future obligations in order to further speed up present development, they may find themselves in great future difficulty.

All countries, all communities, most individuals, have passed through such bitter experiences. Western Canada has not been immune from them, and those who recall the "boom" days of the past know that the period of adjustment following the collapse of a "boom" was much longer than the "boom" itself, and that in the final analysis the losses far out-weighed the gains.

At the present time all our Western cities, towns, villages and rural municipalities are planning their programmes for 1929. Times are prosperous, the country is growing, and the almost universal demand is for increased expenditures to provide this and that. Today it is possible and comparatively easy to borrow the money to carry such enterprises through and to meet the initial "boom" days of the past. But it is a great deal more difficult to remain for years to come. When the present buoyancy subsides, when money is less easy to obtain, when depression and some degree of unemployment replaces present favorable conditions in business, will the load be too heavy to carry?

It will be unless care is exercised by all civic and municipal authorities in seeing that the safety line in expansion is not passed, and that expenditures now made are for permanent constructive work which will be revenue-producing in the years to come. Extravagance in ideas is no more justified in times of prosperity than they are at other times. It is in those "other times" that the test of a community's health may be found.

Developmental works are necessary and are justified in times of prosperity, when they would be suicidal, in fact quite impossible, in times of depression. When depression prevails it is frequently impossible to provide for even imperative and wholly justifiable expenditures. These must be provided when times are prosperous. It then becomes an equally imperative duty to provide them.

But non-essentials, no matter how desirable they may be in other respects, should be carefully considered less citizens, the taxpayers, are unthinkingly swept into the authorization of expenditures which later on they may have cause to bitterly regret.

Such words of warning are unnecessary in times of depression; it is now, when prosperity is with us, that warnings are necessary and should be heeded.

Simple Precautions Against FLU Sore Throat — — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

The Newest Invention

Wrist Watch When Worth Three Hours Winds Itself

A self-winding watch has been invented by a Lancashire artisan. Finding that seventy-five per cent. of watch troubles were caused by dirt or moisture entering through the aperture of the winder, he set out to make a watch which would be completely enclosed. In two and a half years, working in his spare time, he succeeded. The new wrist watch winds itself. To keep it going all the owner has to do is to wear it for three hours a day. It can not be overwound.

As a verminiferous effective preparation, is Mother's Gravel, Worm Exterminator and it can be given to the most delicate child without fear of injury to the constitution.

Record Beet Acreage Predicted

All records for beet acreage in southern Alberta threaten to go by the boards in 1929. Pre-sign-up indications are that there will be over 10,000 acres of land planted to this crop if the spring outlook is at all satisfactory.

A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the things that our grandfathers is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening tired nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, dependent men, women and children.

Mrs. L. Hupman, Summerville Centre, N. W., writes: "I have been taking Dr. Williams' Pink Pills for years. I have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about, and doing housework left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition. I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results."

I therefore cheerfully recommend these pills as the best of health builders.

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A new German cruiser to be constructed Kiel, is to be electrically welded, no rivets being used in any part of the ship.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

"I wonder why they say 'Amen' and not 'Amenem' today."

"Because they sing hymns and not hers, stupid."

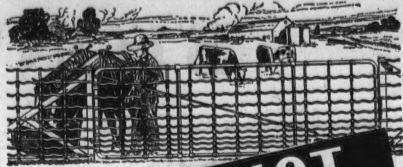

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Quilet: "Did you ever kiss a girl when she wasn't looking?"

Terry: "Not when she wasn't good-looking."

Use Minard's Liment for the Flu.

"FEEL WELL AND STRONG"

MRS. L. MALIN

R.R. No. 5, Bureau St., Hamilton, Ont.

"I have to work in the store and do my own housework too and I get nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I get along nicely now with my work and with my four children. I would like to answer letters."—Mrs. L. Malin.

MRS. FRANK LUKES

P.O. No. 1, Box 54, Lusk, N. Dakota

"I had two babies which I lost at seven months. Before my third baby was born my husband advised me to take your medicine and he bought me three bottles of it. When I had taken the first one I began to feel better so I kept on during the whole period. We have a healthy baby boy and we are so proud of him and praise Lydia E. Pinkham's Vegetable Compound for the help it gave me. I feel well and strong."—Mrs. Frank Lukes.

Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Medicine Co., Lynn, Mass., U. S. A. and Cobourg, Ontario, Canada.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is all, alkaline, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize all excess acids in the stomach. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Every British Dominion Has An Independent Function In The League of Nations Body

One fact which has been made clear by the recent session of the League of Nations at Geneva is that Canada and every British Dominion has a definite and independent function in that body. Despite the conditions under which this country entered the League and the World Court, there still remains in the minds of some European statesmen the erroneous idea that Great Britain is the spokesman for the whole Empire.

Several episodes during the last session brought this subject to the fore, and in such a way, as to make the position of the Dominions abundantly clear. One of these had reference to the World Court, when exception was taken by several European delegates to a British Dominion being separately represented even if the question dealt with was of paramount importance to that Dominion.

Such a contention is absolutely contrary to the whole basis of Dominion inclusion in the League and the World Court and the British delegate, Sir Cecil Hurst, replied very forcibly with the statement that even if an English Judge was on the court, the Dominions would have the right of representation should it be dealing with a question which directly affected their interests.

Neither Canada nor any of the self-governing Dominions have ever recognized the right of Motherland delegates to vote or speak for them, and the sooner this is clearly understood by all member states of the League, the sooner will progress be made in matters affecting our interests.

Canadians are heart and soul behind the general idea and ideals for the maintenance of world peace of the League, but they will never be satisfied to take any position of inferiority in its councils or delegate their vital interests to any one but their national representatives.

Approved Dairy Herd Sires

Reports Of Canadian Record Of Performance Guide To Securing Good Animals

Owners of dairy herds looking for sires bred from high producing stock would find great assistance in locating suitable animals in the reports of the "Canadian Record of Performance for Pure-Bred Dairy Cattle." This publication, issued each year by the Live Stock Branch of the Department of Agriculture, at Ottawa, gives the records of the hundreds of cows tested during the year that reach the standard for registration. The breeds thus tested include the Ayrshire, the Brown Swiss, the French-Canadian, the Guernsey, the Holstein-Friesian, the Jersey, the Red Poll, and the Shorthorn. In all these breeds provision is made for the registration of bulls, which are admitted after having four progeny in the Record of Performance, each from a different dam. Report No. 20 of the "Canadian Record of Performance" contains the names and registered progeny of a large number of sires. By referring to the pages of this report one may discover that there are quite near their homes herds from which they may strengthen their milking herd or secure a sire of approved breeding.

"Why is baby's bed so high?"
"My husband and I sleep soundly and that is to hear him if he falls out in the night."—Lustige Kolner, Zeltling, Cologne.

W. N. U. 1781

Western Man Promoted

W. E. Watson, Well-Known Livestock Man, Appointed Manager Of Montreal Livestock Yards

W. E. Watson, one of the best known livestock men in western Canada, and for some years past a prominent official of the department of colonization and agriculture of the Canadian National Railways, has been appointed to the management of the Montreal Livestock Yards, succeeding Mr. O. J. Tansey, who had resigned. The announcement was made by Major F. L. C. Bond, on behalf of the stockyards company, Mr. Watson having taken over his duties on April 1st.

Mr. Watson is a native of Grey County, Ont., but came west many years ago. He is a graduate of Manitoba Agricultural College, and for a number of years was attached to the Manitoba Department of Agriculture. Later he joined the Dominion Livestock Branch as swine grader for the provinces of Manitoba and Saskatchewan. In February, 1924, he joined the departments of colonization and agriculture of the National Railways, at Winnipeg, as assistant agricultural agent, and in 1925 was promoted to the position of agricultural agent. In 1926 he was appointed superintendent of colonization and agriculture for the National System for the district of Saskatchewan, and in 1927 was transferred to the Winnipeg office of the department as superintendent of farm employment, which position he occupied until going to Montreal.

Manitoba To Have

Airplane Factory

Seven Acres Of Land In St. Boniface Sold For Site

An airplane manufacturing plant, heralded as the greatest industrial advancement in years, will be established in St. Boniface immediately. Announcement that the factory would be brought to St. Boniface was made by D. C. Mills, of Mills and Company, Winnipeg, following a special meeting of the Cathedral city council, when seven acres of land were sold for the site.

The plant, according to Mr. Mills, will be the Canadian branch of one of the largest aeroplane manufacturing concerns in the world, and it will be controlled entirely in Canada. The name of the parent company has not yet been divulged.

The seven-acre site of the new plant, which was sold with a truckage, is known as the old Rat, Fort Ice Company's and old Arctic Ice Company's property, and is located between Tache Avenue and the Norwood Bridge.

Canada's North Is Real Beauty Land

Vivid Picture Of Charm Presented In R.C.M.P. Report

Canada's great Northland is pictured, not as a region of solitude and waste, but as a land of beauty and attractiveness, in the report of the Royal Canadian Mounted Police, tabled in the House of Commons. East of the Great Slave Lake the scenic beauty is inspiring, according to Inspector Gagnon, who, describing a lengthy patrol to Fort Reliance says:

"The Hornby and Inconnu channels are the most beautiful routes possible; at every moment there is something to captivate attention, either in the abrupt shores or cliffs, or their varied coloration, or the thousand and one islands one encounters. Both channels, are lined with innumerable pleasant little harbors.

"The waters are very clear and cold, and full of delicious trout."

Sure To Hear Of Them

Palpitatingly, the infatuated young man sought counsel at the bazaar of an ancient and prayed that the ancient tell him how he might learn of his fair lady's faults.

"Go forth among her women friends," spoke the venerable one, "and praise her in their hearing."

RECEIVES NEW APPOINTMENT

R. D. PURDY

The Alberta Wheat Pool announced the appointment of R. D. Purdy as manager of Alberta Wool Elevators Limited, to succeed C. M. Hall, retired. Mr. Purdy has been manager of Alberta Wheat Pool Organization since January, 1925, and this change makes him manager of the subsidiary organization known as the Wool Elevators, as well. Alberta Wool Elevators operate more than 310 country elevators in Alberta, as well as three terminals on the Pacific coast. Mr. Purdy came to the Wheat Pool from the Bank of Montreal, he having been assistant manager of the Edmonton branch. He was born in Brighton, Ontario, and came West in 1905. He served twenty years with the banking business before coming to the Pool.

A League of Nations committee has set the cost of the World War at \$32,500,000,000.

Work of Preserving Law and Order is Large Assignment in Our Vast Northern Empire

Some years ago when our neighbors to the south betrayed an inclination to challenge Canada's right to her unoccupied Arctic hinterland, with particular reference to Ellesmere Island, the advisability of taking more active steps to prevent future trouble became apparent. That invaluable and highly efficient arm of the government, the Royal Canadian Mounted Police, offered a ready-to-hand solution of the problem and shortly afterwards the business of establishing more northerly outposts was undertaken seriously. It began in 1920 with the placing of a detachment at Port Burwell, near Cape Chidley, at the northeastern tip of the continental mainland, to assist the Customs Department to control the inward and outward bound Hudson's Bay trade. Since then police posts have been located on all the three great islands forming the western boundary of the lane of water west of Greenland. That lane is comprised of Davis Strait, Baffin Bay, Smith Sound, Kane Basin and Kennedy Channel, hitherto together furnishing the avenue of approach to the North Pole.

On Baffin Island, the southernmost of these boundary islands, three detachments of police are stationed—At Ponds Inlet, at the northern end; Pangnirtung, on Cumberland Gulf, and Lake Harbor, in the south, on Hudson Strait. On the central island, North Devon, is Dundas Harbor, and on Ellesmere Island,

the northernmost, is a detachment at La Bache Peninsula, on Kane Basin, in latitude 79.04 degrees north. In addition, constables have been sent to the Royal Canadian Air Force for service at its bases on Hudson Strait, whence it kept ice conditions continuously under observation last winter. From these various Arctic stations the whole northeastern archipelago has been and still is being controlled and administered. The police patrols have not hesitated to make very long journeys. For example, in the early part of 1927 the non-commissioned officer in charge of Bache Peninsula detachment crossed Ellesmere Island to visit the cluster of islands to the west—Axel, Heiberg and others—some undiscovered territory until a quarter of a century ago. This patrol lasted fifty-four days and covered about 1,300 miles.

About the same time a non-commissioned officer in charge of the Pangnirtung detachment made a patrol of about the same distance, skirting the southeastern coast of Baffin Island and returning across the almost unknown interior. A constable, finding the body of a fur trader in his cabin on Baffin Island, hauled it out on his sled for 450 miles of difficult travel to Ponds Inlet for an inquest and Christian burial. The officers and non-commissioned officers in charge of mounted police detachments have commissions as customs collectors, postmasters, coroners, and magistrates. Bache Peninsula is believed to be the most northerly postoffice in the world. The Eskimos here have shown less disposition for violence than further west, but on one occasion, in 1920, a white man was killed by them near Cape Crawford, the northwestern tip of Baffin Island. The non-commissioned officer in charge at Ponds Inlet investigated, found the body, in his capacity as coroner held an inquest, arrested the accused, collected the witnesses and as magistrate committed the accused for trial. In 1923 a special court was sent from eastern Canada, which tried, convicted and sentenced those responsible for the homicide. There also have been cases of religious mania and homicidal insanity among these people. The relations between the police and the Eskimos are good.

A Hazardous Occupation

Natural Scientists Face Many Dangers In Tropical Jungles

Pursuit of moths and butterflies in the tropical jungles of Ecuador is a hazardous occupation, according to W. Judson Coxe, member of the Philadelphia Academy of Natural Sciences, who returned from a protracted expedition.

Coxe told of meeting bird-eating spiders the size of dinner plates and killing venomous reptiles in the hands of rare and beautiful butterflies. One of the spiders encountered, Coxe said, he was forced to shoot with a revolver as it was about to spring at him.

Rattlesnakes which give no warning when attacking, were brought back by the scientist. They are known as "Eco" or "X" snakes because of their markings and have "rattles" which make no noise.

"What is it that lives in a barn, eats cats, walks on four legs, and can see as well from behind as from the front?"

"I'll bite. What is it?"

"A blind horse."

"Look here, this new cream has made my shoes look like new."
"Um—er—suppose you swallowed some?"—Pages Gates, Yverdon.

BEAUTIFY CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on! Cleanliness has a history. It's influence can be traced down the ages. Those races that were Clean were the races that were Masters.

The Athenians, with their baths and beautiful homes conquered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens beat back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the dirtiest monarch France ever had and one of her mightiest. Fifth kept the Panama Canal from being built years before it finally was. Bolshevism flourished when the dirty and the ignorant gained control in Russia— anarchy reigned in fifth and anarchy.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war.

Race people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play at last.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Tin cans, flies, refuse, dirt, waste paper, unsightly buildings, unpainted surfaces are taboo. The drive is on. I won't be stopped.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make the old enemies, Dirt and Disease and Unsightliness abdicate forever.

The Use of Paint

Lessens Farmer's Cost Of Doing Business

The farmer, like the manufacturer, must employ the most efficient and economical methods of doing business if he is to prosper. When he keeps track of costs he finds that by building of better material, buying better implements, and then taking care of them, he increases his power of production and lessens the drain on his income.

Next to the purchase of good materials, the use of good paint is the farmer's best insurance; it protects his property and equipment against the rapid deterioration caused by wear and weather. The protection and appearance of barns, fences, windmills, wagons, tanks, etc., are just as important as the careful upkeep of factory tools and machinery, and depreciation here should be figured as carefully by the farmer as by the manufacturer.

A few cents invested in paint and a little work each season will soon show in the lengthened life of your equipment to say nothing of the satisfaction you will take in its improved appearance. Here is a list of paints that it will pay you to keep on hand:

Two-quart can of buggy paint in red and black, for painting up wagons and buggies.

A small can of aluminum paint, for interior iron work, such as stalls, stanchions, etc.

A small can of implement or spar varnish.

A half-gallon can of metal protective paint, for metal buildings. A good graphite paint is best for this purpose. Paint over regularly all such exposed metal parts as hoops, turnbuckles, outside hinges, door-hangers, iron hitching posts, etc.

A gallon can of barn color or house color for general repair work. It is well also to periodically treat the inside of staved silos with the special compounds prepared for that purpose.

The life of fence posts can be prolonged three times if the lower part is treated with the compound used on silo staves. This can be most easily done by taking a full barrel of the preservative, putting half in another empty barrel, taking the heads out of both barrels, and letting the fence posts stand in them over night. This treatment will make the poorest wood last longer than the best chestnut.

It has been proved that the painting of good galvanized wire fence doubles its life. In putting up a new woven wire fence the painting can be done very easily by making a

shallow trough that will take in the roll of wire fencing. Turning the roll around in the trough and pouring the paint over it at the same time will thoroughly cover every part. A good metal paint is best for this purpose.

A paint which makes concrete sufficiently non-absorptive to shed an ordinary rain greatly enhances the value of concrete buildings for cow stables, granaries, dairies, etc. The absorption of water through the walls has been the principal objection to such buildings in the past. Concrete paints come both in natural cement color and in several pleasing shades.

It is never advisable to try to paint an old shingle roof unless it has been previously painted, because the water gets under the shingles causing them to rot and curl up. It is always well, however, in putting on a new shingle roof to dip the bundles into a properly prepared shingle stain; this is especially true now— as the quality of shingles is much poorer than formerly.

It is good policy not only to prevent deterioration with paint but also to forestall paint troubles. The commonest of all paint troubles is peeling, the chief cause of which is moisture, and moisture in turn is due to:

1. **Dampness in the Wood.** This means not only wood which is damp and tough, but wood improperly seasoned, recently exposed to rain or fog or dew.

The pores in kiln-dried lumber are open and will soak up moisture; for this reason allow a new building to stand a month or two unpainted.

In short, if there is moisture in wood, heat will drive it either out or in. If heat on the inside of the house drives it outward the paint will peel.

2. **Dampness Back Of the Wood.** This is commonly due to green plaster. Too often in a hurry to complete a house the plasterers are put to work on the outside while the plasterers are finishing the inside. To complete the rush, about the time the paint is dry the furnace is started to dry the plaster. The moisture must find an outlet and is driven out through the exterior woodwork, carrying the coat of paint with it.

3. **Ochre Priming Coats.** Common ochre is the cheapest pigment, and when one remembers that the priming coat is the foundation on which the finishing coat depends, he does not have to be a paint manufacturer or dealer to appreciate how absurd is the statement so often made "Anything is good enough to prime with." Cheap ochre is nothing but clay stained, which makes a slippery, brittle paint.

4. **Old Paint Loosely Attached To the Wood and Not Thoroughly Cleaned Away.** If old paint is not firmly attached to the wood the con-

traction is the drying of the new paint will peel it off. Repaint before the old paint begins to let go. It's poor economy to delay repainting.

In case the under coat is brittle, scrape, sand, paper, and wire-brush all loose particles before repainting. If too far gone remove with a painter's torch. Always remember three thin coats of paint are better than two thick ones. The thick coats may save a few dollars in the beginning but may cost more than double in the end.

5. **Fat Resinous Wood Not Properly Seasoned Or Prepared For Painting.** This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine and rosin. It is the rosin that causes the trouble. It mixes with the paint and makes it brittle. The knots are the worst spots and should be coated with shellac before painting. Turpentine dissolves rosin. This fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual in the second coat, but, when every care is taken, paint will sometimes peel off yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the wood are necessary to success on yellow pine.

6. **Boiled Oil.** Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil; its preparation gives a glossy, varnish-like surface, and the priming coat should always be flat, or the succeeding coat will not adhere to it. Boiled oil should never be used for any coat in outside painting. Paint may fall from causes other than those named because of application on dirty or greasy surfaces; because of leaky roofs; because of the use of adulterated linseed oil and poor dryers; because the coats are too thick, or because the under-coats are not dry—but the majority of cases are covered by the causes specifically named in this article.

A Clean Town

Adds To the Value Of Your Estate and Promotes Good Health

Towns are measured by their general cleanliness and civic pride.

We need more trees and shrubbery around our homes, about the schools, in the parks, along water courses, and many other places.

Good health depends to a great extent upon the removal of rubbish and filth and the destruction of breeding places for disease-carrying insects.

It is the duty of every citizen to prevent deterioration. Paint is both a beautifier and a preventative of building decay.

Epidemics that come in the summer months have their origin in filth. We cannot hope to make our town a bigger town, unless we make it a cleaner town.

It is a well known fact that flies have been the means of transmission of disease, and this pest may be responsible for the transmission of infantile paralysis.

Filth, more than all other causes combined, produces disease, and it is up to every citizen to see that his immediate surroundings are sanitary. Every citizen should make an effort to clean up his house and property so as to avoid fire risk; to abolish all places that might breed flies and mosquitoes to eliminate weeds and to help clean up vacant lots.

Clean-Up and Paint-Up On the Farm

The man who owns a farm or lives on one should be just as much interested in Clean-Up and Paint-Up as the city householder. And the incentive to start such campaigns has been just as marked in the rural districts as in the more thickly populated ones.

Farmers everywhere are being urged to remove ramshackle buildings, repair and paint those that remain, trim hedges and trees, and clean and paint tools and machinery.

These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean Up and Paint Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Send your rubbish to the dumping ground.
2. Suggest to several men with teams, that they drive through the alleys with a sign, "Clean-Up Wagon" on their wagons; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.
3. Burn all rubbish that will burn. Clean your vacant lots and alley ways.
4. Make your street and parking look as trim and well kept as possible.
5. Refrain from throwing old paper, banana and orange skins into the streets.
6. Plant some grass and flower seeds to make your home beautiful.
7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.
8. If there are unnecessary, unsightly sheds in your back yards, tear them down. They detract from the beauty of your home and the town. Open spaces and fresh air are better.
9. If your walk is an eyesore to those travelling over it, repair it or build a new one.
10. Trim hedges and trees and spray trees.
11. Paint and whitewash barns, poultry houses, outbuildings, etc.
12. Paint tools and machinery.

The local "Clean Up and Paint Up" campaign offers the most direct and practical and permanent avenue through which women, organized or individual, can work for homes and home towns beautiful and sanitary.

Keeps Floors Beautiful

Beautiful floors are largely a matter of preventing—the great secret is to put them in perfect condition—and then keep them that way. Doorways, passages and tracks become worn and unsightly first. You can keep these spots looking well by waxing them frequently. This requires but little time and effort if a good prepared wax and floor polishing brush are used.

Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your homes, offices and stores in other than metal boxes. Use safety matches.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wire; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and fill by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ashes in other than metal cans.

Ask Your Dealer for this Brand

When Buying Carpets, Rugs, Curtains Mattresses, Bedding and Furniture
The Quality and Value are Guaranteed by
GAULTS LIMITED
Winnipeg Edmonton

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous bonfires.

Loss through preventable fires in the United States is \$250,000,000 which, however, is exceeded by the annual loss through the lack of painting—according to Prof. H. H. King, who has conducted paint tests for several years for the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance rates; increases property values; remove unsafe buildings; swat the fly; make school and home gardens; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and utilize waste; make more attractive and safer homes and places of business, and develops a community spirit that permanently insures a cleaner, safer, healthier and more beautiful town.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

RUST RESISTING WHEAT SOON TO BE AVAILABLE

Winnipeg.—Developers of agricultural scientists to efforts a rust-resistant wheat, which would save millions of dollars annually, are meeting with success.

At a meeting here of the Associate Committee on Rust Research, organized under the auspices of the Dominion Department of Agriculture and the National Research Council, reports delivered showed that rust-resistant wheats which appear to have good baking and milling qualities have been secured through the efforts of the plant breeders engaged on the problem and now await development.

Paying tribute to the work of Canadian scientists, especially those working on agricultural problems, Dr. J. H. Grisdale, deputy minister of agriculture of the Dominion, said that profound study and unceasing application to the problems had at last produced results which seemed to be a fair way to solve the difficulties in the way of combatting the rust menace. This, he added, was obtained through the close co-operation of the plant pathologists and plant breeders.

During the sessions of the committee it was reported by L. H. Newman, Dominion cerealist, that baking tests on some 36 lines of Marquis cross rust-resistant wheats are under way at Ottawa. Of these several showed real promise and some of them excel in baking qualities.

Members of the committee today witnessed a demonstration of a newly-developed rapid electrometric method for the determination of moisture in wheat. The demonstration was conducted by Professor Burton, of the University of Toronto, and Arnold Pitt, inventor of the instrument. The instrument is not yet fully developed, but gives great promise when complete details of its operation have been worked out.

Tests developed last summer in Manitoba showed that sulphur dusting of grain is effective in controlling rust, but further research work is necessary for the development of a dusting schedule. Small plot, pit and greenhouse tests were conducted. Both horse-drawn and motor-driven machines were used.

At the concluding session of the

conference, Dr. Grisdale announced that a conference of plant pathologists conducting research in plant diseases other than rust would be held in Edmonton some time during the autumn.

More Settlers Going Into Peace River

Figures To Date Show Large Increase Over Last Year

Edmonton.—Nearly 1,000 settlers with a total capital estimated at approximately \$1,150,000, have gone into the Peace River country as new settlers to date this year, according to colonization officers here.

The real rush of settlers commences in April. Last April 1, 200 settlers went in. This April conservative estimates place the figure at 1,500, and the good start already made this month indicates that this estimate is likely to be exceeded.

The settlers are in the majority of cases Canadian and American of excellent type, probably 90 per cent. of them are seeking homesteads, which means that the great bulk of the settlement will be on new land.

Lands beyond railway extensions both north and south of the Peace are favored, the homesteads being about equally divided between Fairview, on the north side of the river, and Hythe, on the Grand Prairie extension south of the river.

Money For Immigration

Over Million Dollars Spent in British Isles in 1928

Ottawa.—A total sum of \$1,016,202 was expended by the department of immigration in the British Isles in 1928. The sum expended by the same department on the continent of Europe alone last year, was \$75,799.67. The amount expended for obtaining immigrants in the United States was \$392,157. The aggregate amount spent by the immigration department from 1921 to 1928 was \$5,618,024.96.

The information was given in the House of Commons by Hon. Robert Forke, minister of immigration and colonization.

Questions Grown Boat On Lakes Ottawa.—Questions regarding the approach to the Canadian shore in one of the great lakes recently of a U.S. gunboat have been placed on the order paper of the House of Commons by Gen. A. G. Ross, Conservative, Kingston. General Ross requests information as to whether there is an agreement between the two countries for the use of gunboats on the great lakes and if Canada has any armed boats thereon.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my hands and feet, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Priced 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Former Doorn Official Arrested

Berlin.—Police admitted that they had arrested Karl Hartung, recently secretary to the former Kaiser's wife, Hermine. The arrest had been kept secret. It was reported Hartung had threatened to make "revelations" about conditions at Doorn Castle in Holland.

The Oil Of Power.—It is not claimed for Dr. Thomson's Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Aviator Performs Dangerous Stunt

Makes First "Outside" Loop Ever Negotiated in Commercial Plane

Minneapolis, Minn.—Charles W. (Speed) Holman, holder of the world's record of 1,433 consecutive loops, claims the distinction of having made the first "outside" loop ever negotiated in a commercial plane.

Holman performed the feat at an altitude of 4,000 feet over World's Chamberlain Field here. He used the same Wright Whirlwind-motored biplane with which he won the New York-Seattle air derby two years ago.

The outside loop, regarded by aviators as one of the most dangerous "stunts" in flying, had never been completed before except in strong, especially constructed army planes.

BABIES GAIN BY THIS SIMPLE METHOD

Doctors say—souring waste in baby's digestive tract is usually back of any failure to gain weight according to schedule. And the best proof, this is true, is the quick way, weak, frothy, puny babies improve when you cleanse their stomach and bowels and put them in order with a few doses of purely-vegetable, pleasant-tasting Fletcher's Castoria. This gentle, harmless preparation is the doctor's first thought to relieve those ill of babies and children, such as colic, gas, constipation, diarrhoea, colds, etc. Just be sure you get genuine Castoria in the bottle that bears the Fletcher's signature.

New U.S. Ambassador To Great Britain

Appointment of Former U.S. Vice-President Is Announced

Washington.—Formal announcement of the appointment of former Vice-President Dawes as ambassador to Great Britain has been made at the White House.

The appointment was made after receipt of word from the state department that the British government had advised that the appointment of Gen. Dawes would be entirely acceptable to the King.

Thinks Pact Necessary

Starnburg, Germany.—Count Von Bernstorff, chairman of the German delegation to the League of Nations disarmament preparatory conference, on the eve of his departure for Geneva, expressed the opinion that the out-law war pact was necessary and should be followed by world disarmament and the adoption of a general pact for settling all disputes by legal means.

RICKETS

Children with weak bones or poor dentition receive great benefit from the use of

Scott's Emulsion

It is wonderfully pure, vitamin-rich cod-liver oil and helps build a strong, healthy body, sound bones and teeth.

Long Term Leases For Churchill Lots

Will Probably Be For 99 Years Says

Hon. D. G. McKenzie

Winnipeg.—Leases of lots in the townsite of Churchill, terminus of the Hudson Bay Railway, will probably be for 99 years, transferable and subject to revision as to rates at the end of five years, and each ten year period thereafter, it was stated by Hon. D. G. McKenzie, minister of mines and natural resources for Manitoba.

It was intimated a few days ago by Premier Bracken, that the government did not intend to sell lots at Churchill. Interest in the settlement of Manitoba's northern sector continues to increase, Mr. McKenzie said. The government will concentrate its work on the townsites of Cranberry Portage and Sheritt-Gordon, the minister added.

Will Join Los Angeles To London Flight

Australian Aviator Plans To Accompany Captain William Lancaster

Redbank, N.J.—Mrs. Keith Miller, Australian aviatrix, who flew with Captain William Lancaster from London to Australia, has said she would be second pilot and radio operator on a proposed flight from Los Angeles to New York, London and return.

Captain Lancaster will be pilot on the projected flight and Captain Henry Lytton will be navigator. Mrs. Miller said that she hopes to take off from New Los Angeles in June. They plan to reach New York in one hop and fly between the east and west coast on their return without stopping. They will use a tri-motored all-metal closed plane.

SUNDAY SCHOOL LESSON

APRIL 21

COMFORT FOR GOD'S PEOPLE

Golden Text: "As one whom his mother comforteth, so will I comfort you."—Isaiah 66.13.
Lesson: Isaiah 40.1-11.
Devotional Reading: Psalm 30.1-5.

Explanations and Comments

The People Of Judah Have Suffered Their Full Penalty, verses 1, 2.—We pause today to bring comfort from the time when Judah was enjoying great prosperity under good King Hezekiah to the last time when King Zedekiah in Jerusalem had fallen prey to the Babylonian power and had been laid waste, and the people of her people carried away into exile in Babylon. Comfort ye, comfort ye my people, saith your God. How great was the people's need of comfort is shown in Isaiah 40.7: 49.14. Who the "ye" are prophesied, "the prophets, or the prophetically-minded among the people; certainly not the priests." "The prophets may be nameless, but the people who speak through them speak as already known and acknowledged." My people, saith your God. By these imperious voices a personal revelation is made.

Speak ye comfortably to Jerusalem. Speak comfort to the heart of Jerusalem, is Dr. McPadden's translation. The prophets were to put hope into the heart of the exiles, to strengthen them by an assurance of a speedy return to the home land. Jerusalem (then in ruins) is "an ideal representation of the people." "The city had suffered in and with her exiled people, and their deliverance was hers."—G. W. Wade. Tell her that her warfare is accomplished her time of service, her exile, is over; that her iniquity, her guilt, is pardoned; that she has received double penalty (a complete punishment) for sins.

"The prophet's charge is laid upon all who would speak of Christ to men. Speak to the heart, not only to the head or the conscience, God bestows in the person of his ambassadors. The substance of the message may well find its way to the heart; for it is the assurance that the long, hard service of the term of exile is past, that the sin which brought it about is forgiven and more wonderful and gracious still, that God's mercy reckons that the ill which follow our faithlessness have more than expiated it."—Alexander MacLaren.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cures which other preparations had failed to bestow. It brings help to even the most severe cases and brings the patient to a condition of blessed rapture. Surely suffering from asthma is needless when a remedy like this is so easily secured.

NEW RECORD IS SET IN C. N. R. REPORT FOR 1928

Ottawa.—The railway operating revenue of the Canadian National for the year 1928 reached the record figure of \$276,681,921. After payment of operating expenses, amounting to \$218,248,345, taxes amounting to approximately five million dollars and other charges, the total operating income was \$53,213,729 compared with \$40,789,724 in 1927.

The report of Sir Henry Thornton, chairman and president, covering the operations of the system in 1928, was tabled in the House of Commons by Hon. Charles A. Dunning, minister of railways and canals. It tells of the progress made by the publicly owned system in its various departments.

The ratio of operating expenses to gross earnings in 1928 was 78.89 per cent. as against 81.75 per cent. in the previous year.

The gross earnings exceeded those of 1927 by \$27,915,546, (11.2 per cent.). Freight traffic produced \$200,439,962; passenger traffic, \$34,187,023; express, \$13,307,373; mails \$3,099,212, while miscellaneous operations produced \$16,898,248. Passenger revenue increased 1.7 per cent. over the figure for 1927. Gross express revenues were increased by \$695,947 (5 per cent.).

The total Dominion grain crop harvested in 1928 was approximately 1,200,000 bushels. The report estimates an increase of nearly 10 per cent. over the figure for 1927. For the calendar year grain deliveries on the western region of the C.N.R. were nearly 37 per cent. over the former record made in 1923.

Income Tax Collections

Ottawa.—There was an increase of \$2,851,250 to the total income taxes collected in the year ending March 31 last, as compared with the year before, it was announced by Hon. W. D. Eulder, minister of national revenue, in a statement issued. The total for the past year was \$90,422,297.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-humps, use "PUTNAM'S"—it's reliable, and sure to shelve up the corns so they drop right off. No pain, no soreness, but quick relief from corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

The horns of the taxis in Italy are pitched in different keys and when a block occurs on a street, the protest is melodious and never harsh.

SPRING SHOWING

of the

NEW CHEVROLET SIX

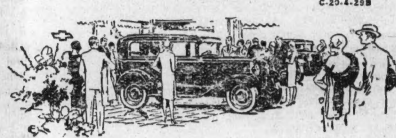

—a Six in the price range of the four!

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you every advantage of six-cylinder performance in the price range of the four... six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder acceleration.

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies. Longer lower and roomier... finished in striking new colors... and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.

You Are Cordially Invited to See Our Special Exhibit of the New Chevrolet Six

SOMMERFIELD & MAYER,
STONY PLAIN, ALTA.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Was Honored for Service to Royalty

Walter Reginald Baker, C.V.O., former secretary of the Canadian Pacific Railway and the last surviving member of the original traffic organization of the line, died on April 1, at his home in Montreal. Mr. Baker entered the service of the C.P.R. two days after the organization of the company in 1881 and retired at his own request on January 1, 1917. He was in his 77th year.

During his thirty-five years' service with the C.P.R., Mr. Baker was assistant to the general superintendent, assistant to the president, assistant to the vice-president, and secretary. Previous to his association with the railway, he was private secretary and controller to Lord Dufferin, Governor-General, 1874-78.

Born in York, England, on May 25, 1839, Mr. Baker came to this country alone at the age of 18 years. The boy began to establish a career for himself early, and after passing through several stages of progress towards success, found himself, at the age of 22, private secretary of His Majesty's representative in the Dominion. Later he became attached to the Treasury Department and was assistant secretary of the Treasury Board at Ottawa just before the C.P.R. was organized.

In the historical organization of the railroad, Mr. Baker was one of the principal actors. Before he died, the former secretary put down on paper, as the last surviving member of the original group, just what were the circumstances surrounding the beginnings of the great company's organization. The company was formed on February 15, 1881, and the organization meeting of the board of directors was held two days later. Charles Drinkwater was named secretary of the company, the first official to be appointed, according to the account of the historical event as related by Mr. Baker.

Mr. Baker's Story

Duncan McIntyre, later first vice-president of the company, was a member of the "syndicate" which had planned the organization of the C.P.R. He had made a promise to Mr. Baker some time before that, if the "Canadian Pac-

ific" in his autobiographical account, "so, I said at once 'I will go wherever you want me to go.'"

On the way to Winnipeg there were short stops at Chicago and St. Paul, where Mr. Baker had an opportunity of looking into the American system of railway accounts. A special train took the party to Winnipeg. Those with Mr. Baker were: A. B. Stickney, general superintendent, William Harder, assistant traffic manager, Joel May, superintendent, and F. C. Butterfield, master mechanic.

"This party was the original traffic organization of the Canadian Pacific Railway," Mr. Baker recorded. "Before we arrived at Winnipeg," he continued, "Mr. Stickney decided that he wanted me to act as his assistant and I was accordingly appointed to the position of assistant to the general superintendent."

Various Appointments

In Winnipeg, Mr. Baker held several positions successively in the C.P.R. He was purchasing agent, assistant to general manager, local treasurer, assistant to general superintendent, executive agent and filled several other positions. He was also connected with the Manitoba and North West Railway. In 1901 he left Winnipeg for Montreal. On that occasion he was presented with a solid silver service by the business community of the western city.

During his connection with the railway, Mr. Baker came into contact with several royal personages. It was in charge of the royal train over the C.P.R. line during the several visits of the Prince and Princess of Wales, now the reigning monarchs; Prince Arthur of Connaught, and Prince Fushimi. In return for his services to these royal visitors he was presented with several testimonials and received several titles. Among his titles were: Commander of the Royal Victorian Order, Commander of the Order of the Sacred Treasure of Japan, Esquire of the Order of St. John of Jerusalem, and Freeman of the City of York.

He held audiences with Their Majesties King George and Queen Mary at Buckingham Palace in 1911.

CHAPTER XVII.—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the kudos of the admiring crowd; she wanted only to get away from the scene as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weary cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Lafonte urging his tired mount toward the Pemberton trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their fists and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunged for the reins, missed, then caught the stirrup. Lafonte struck the man a blow with his heavy whip that loosened his hold and felled him to the ground.

Connie saw Gillis break from the crowd, jump to the saddle of a cayuse and start after the fleeing man just as the latter disappeared in the woods. Gillis waved his hand to her and vanished in pursuit. She urged Pegasus to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore, and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and his head drooped wearily as he dragged his tired limbs up the steep trail.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

Aspirin is a Trademark Registered in Canada

W. N. U. 1781

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms passionately around his neck and stroked his symmetrical head with soft caresses. "I'm so sorry, Peggy, dear," she said in a choking voice.

The horse ripped her shoulder in a weak attempt at playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy, dear," she whispered softly as she nestled her cheek against his soft mane "do you know that I can have some nice clothes now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your mane. And you, Peggy—with a flood of tenderness in her voice—"you won't all this form me."

She was crooning sweet nothings in his ear that only Pegasus could understand when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Constance darling?"

Connie stepped forward. She was pale and weak, but her colourless lips tried to form a smile. "Yes, Daddy dear—I'm all right—" Her voice trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken flower into her father's outstretched arms. For the first time in her life Connie had fainted. She lay like a cherub in his tender arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, her father carried her to the cabin and feverishly stretched the bruised little body on the coarse blankets of her bunk.

CHAPTER XVIII.

At the race-course the crowd edited excitedly about the judges' stand, or stood in groups talking of the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere trifle.

Gillis came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did you get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted, "I got the d—d skunk," he answered savagely.

He turned to a group of Indians. "You fellows'd better look out for him when you go along; his eye-sight's kinda bad."

Donald came to the front of the judges' stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentleman below pointing down at Andy, 'will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Give us your feel!'"

The crowd cheered lustily. Then, bustling each other good-naturedly like a lot of schoolboys, they formed in a long queue.

Andy started the contribution by giving his whole roll of bills. Money showered upon him until he was forced to call for another hat.

"Fightin'!" Jack came to Donald in great perturbation. "Say! Our gang's all stony broke. Can we sign a du-bill?"

Donald called the time-keeper. "Make her out for twenty bucks for each of us," said "Fightin'!" Jack. Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart," he murmured, "she can 'ave an 'ole shipload of them blinkin' cemeleto things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul.

"How is she, Doctor?"

"She's had a slight shaking up, but there are no bones broken. She will have to remain in bed for a week or so."

Wainwright saw Donald coming and stepped outside the door to meet him. "She's sleeping," he said in a low tone. He looked questioningly at Donald as the latter passed him the package of money.

"The prize money," Donald explained.

Wainwright peeped at the contents and his face lit up with pleased surprise.

Minard's Liniment for the Grippes and Flu.

tonishment. "I understood that the purse was to be a small one!"

When Donald told him of the collection Wainwright's face darkened. "Is that the custom?" he questioned sharply.

Donald nodded. Wainwright paced nervously with hands clasped behind his back. "Pardon my abrupt manner," he said contritely, "I am a bit out of sorts today."

Every evening Donald called at the Wainwright home, bringing little delicacies carefully prepared by Andy. Once he spoke to Connie from outside the door, and her answering voice gave him an odd thrill. He pondered over this as he made his way down the hill. He was struck by a sudden thought. His face broke into a smile and he shrugged his shoulders. "Nonsense," he said aloud.

Janet remained several days after her friends had returned to the city. She tried in vain to restore the familiar relations which formerly existed between herself and Donald. His evening visits to the cabin on the mountain deprived her of his company, and she, half-jestingly, reproved him for his inattention to her. With spirits depressed and a despondent look in her dark eyes, Janet returned to Vancouver.

One evening Wainwright gave Donald a letter to post, addressed to a big departmental store in Vancouver. A few days later there arrived numerous bundles and boxes, including a big trunk. Donald with the assistance of Gillis's crew carried them up the hill.

"I've brought your big trunk with the 'bulgy top,' Miss Wainwright," he called.

Connie sat up in her bunk so quickly that her head bumped the boards above. "Miss Wainwright!" he had called! Her eyes gazed in the dusky half-light. "Thank you so much," she replied.

The next day Wainwright informed Donald that Connie was up and would see him.

"Just a minute, Dad," she cried as she heard them approaching.

Feverishly she rushed to the small mirror to glance at her reflection. With nervous hands she smoothed imaginary wrinkles from the collar of her dress. Then she sat down gravely and arranged her skirts about her.

CARTER'S LITTLE PILLS
This Pure Vegetable Pill will move the bowels without any pain and depressing after-effects. Sick Headache, Indigestion, Biliousness, Bad Complexion quickly vanish. Children and Adults can easily swallow Dr. Carter's Little, sugar coated pills. They are free from calomel and poisonous drugs. The Druggists' Aid and The red flag.

CARTER'S LITTLE PILLS

NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dying to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through washing and wearing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes

Easy to use Perfect results AT ALL DRUG STORES

An old-established wine firm of Australia has incorporated under the British Columbia provincial statutes and proposes importing Australian wines in large quantities.

Long Air Trip Planned

One of the longest air lines in the world is being contemplated between London and Cape Town. The route, more than 8,000 miles long, will branch off at Cairo, crossing over into India.

KEEP YOUR BABY

HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Cedar Rapids, Iowa, says concerning these Tablets: "I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail for 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

You can tell a civilized country. It's one where people kill the birds and then spend millions to fight insects.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils composes Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Magistrate: Are you sure you understand the nature of an oath?

Youth (scared stiff): Sure. Ain't I your caddy down at the links.

Minard's Liniment for Coughs and Colds.

He (earnestly): "I mean to kiss you, and kiss you, and kiss you."

Sunday Evening's Lecture.

A Missionary meeting was held in St Matthew's school-house on Sunday evening last which was well attended. An address was given by Rev E Eberhardt, and scores of lantern slides were shown, which gave an added interest to the lecture. Pictures were shown depicting scenes of the early days of this district, when the Rev Eberhardt came here in 1894, and there were but 18 families in the congregation here. Mr W Rosnan assisted with the pictures.

At the close of the address the Waltham League members held a social hour.

Carvel Clippings

Mr G Stebbings will hold a clearance sale of his stock and effects tomorrow, Friday, April 19. Gilbert is retiring from farming.

An autolod of I R inspectors gave several of the local manufacturers the once-over on Friday last, but nothing was discovered.

A dance is billed to be held at Cottage Lake schoolhouse tomorrow evening, April 19.

Mr Jos R Prussia is the weed inspector for divisions 2 & 5 of Inga M. D.

Inga Municipal District, NO. 520.

Wanted—An Assessor, to assess all Farm Lands in the Municipal District of Inga No. 520.

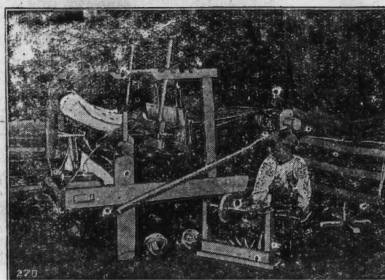

Applications to be in the hands of the undersigned by 10 A. M. Friday, May 3rd, 1929, at Stony Plain.

Dated at Stony Plain this 10th day of April, 1929.

E. H. PIDGEON,

Secretary-Treasurer
M. D. of Inga No. 520.

Foundation of National Culture

Two new Canadians from Roumania demonstrate the art of weaving at Regina.

Those who have in the past regarded the New Canadians from Europe as hewers of wood and drawers of water must, after the recent demonstrations at the Great West Festival at Regina, admit that these peoples have, with their native arts, decidedly enhanced the cultural wealth of the country of their adoption. J. Murray Gibson, who sponsored the festival under the auspices of the Canadian Pacific Railway, even goes so far as to say that Saskatchewan and the other prairie provinces have within their borders the foundation of a National culture finer than that of any other nation on earth. To this foundation, the first seed for which had been turned at the previous festival at Winnipeg, all the races which go to make up the peoples of the west have contributed—Icelanders and Irish with their folk-songs and lore, Swedes and Slavs alike with their folk-crafts and dances. Hardly a race known to civilization, old or new, but contributed to the festival some artistry which will make for the further development of that culture which, being national, will be the means of welding to a still greater solidarity those people who are Canada.

That the movement for the attainment of this end is a popular one was demonstrated by the fact that literally thousands were unable to obtain admission to the exhibits and concerts and that western cities are vying with one another as the site of the next festival.

Spruce Grove News

In the calf-feeding competition at the Edmonton Stock Show last week Walter Schellenberger won the first prize with a registered "Ayrshire" over a large number of competitors. Others from this district who won prizes are—John Schellenberger, with an Ayrshire; and Garnet and J Bevington, each with a pure-bred Holstein. The two former boys are sons of Mr M Schellenberger, and the latter two are sons of Mr Geo Bevington.

Watch for the big concert in the local hall Wednesday next, the 24th.

The Woodland Dairy cream truck has started on its regular collecting trips, with Matt MacKean Jr. at the wheel.

Good News, If True.

Mr. Chris. Pattinson, the live wire who represents Edmonton in the Alberta Legislature, in an interview in Edmonton, stated that the allotment to the various highways in the province had not been made when he left Edmonton.

However, he was informed that the section of the Jasper Highway between Wintburn and Wabunan would be widened, the sharp turns straightened out, and the road generally brought up to standard preparatory to the graveling of that portion of the Highway next year.

It is understood that the Government, when this is completed, will re-condition and bring up to standard requirements other portions of the Jasper Highway until the boundary of the Jasper Park is reached.

Ford

FORD SAFETY.

Safety, comfort, reliability, economy, speed, acceleration, beauty—these are the features that make the new Ford such good value. Of all these is none more important than SAFETY.

The safety of the new Ford comes not only from its efficient brakes, but from many other factors. Among these are, ease of steering and control, the Triplex shatterproof glass windshield, and the sturdy, balanced construction of the car.

We can make immediate deliveries on all models.

A Tremendous Increase in Public Acceptance

FOR years McLaughlin-Buick has led the world in fine-car sales.

For years the proven McLaughlin-Buick engineering principles have been acclaimed by an overwhelming majority.

But now a tremendous increase in public acceptance has resulted in establishing during the past month, a new sales record for all time.

Because here, in addition to the powerful, triple-sealed, valve-in-head engine; the famous torque-tube drive; the cantilever rear springs and the wonderful sealed chassis, are new, revolutionary standards of performance and riding ease, and new beauty and luxury of Masterpiece Bodies by Fisher!

You have but to drive this great car to understand why it is literally breaking all sales records for cars at or above its price.
